and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

This is totally obsurb. I feel that the taxes and surcharges and rates are too high now. I do not feel that we should be charged additional money for our piece of mind and safety. With all that is happening in this world lately I feel everyone should have the security of the Tracphone Cell phone at the rates this company offers us. These rates are both affordable and reasonable for those of us who do not have a lot of money to blow or the Senior Citizens whom are on a fixed income. How is that you feel that you can put a price on our heads? Where is the justification in this?

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Kimberly A. Klimek
